

Men Jailed for London Fire

Six men were jailed for setting fire to a warehouse in London for the Wagner Group. The fire caused £1.3 million in damage.

Two people got prison time under the new National Security Act 2023. One got 17 years, the other 12 years.

The men helped by setting the fire and driving the car. They got 7-9 years in prison. The UK says this shows they won't allow trouble from abroad.
