

The right to
be treated fairly

Cookies and Human Rights Talk

The UK and others talked about human rights in Israel and Palestine. They are worried about the fighting in Gaza and want it to stop.

They want Israel to allow food and help into Gaza. They are upset about attacks on aid workers and have new rules to stop violence in the West Bank.

They hope for a deal to stop the fighting, help hostages, and support a two-state solution. They want the suffering to end for everyone involved.
