

Rachel Reeves will talk about UK spending. More money for roads and energy. Some government parts might get less money.

The plan lasts until 2029. Bus fares stay low until 2027. Some areas get more money, others less. Reeves says it's due to money problems.

Giving more money to the NHS might mean less for others. Reeves wants to use taxes, not borrowing, and may change taxes for businesses, not people.

Some say the government spends too much. Others want more for growth. Reeves wants better health, safety, and economy for all.
