

A woman worked as an NHS doctor for 20 years with a fake degree. She must pay back over £400,000 or face more time in jail.

Alemi faked a degree in 1995, fooled the General Medical Council, and earned over £1.3 million from the NHS without being a real doctor.

In 2018, Alemi was jailed for fraud for forging a will. The General Medical Council then checked other foreign doctors' papers better.
