

New Homes at Ripon Barracks

1,300 new homes will be built at Ripon Barracks with green spaces, a school, and shops. This uses land the Ministry of Defence no longer needs.

The project starts with 150 homes at Deverell Barracks. Different government groups will work together to make it nice for new families.

This plan will build 1.5 million homes to help with housing. The MoD is also improving homes for military families.
