

Little Simz, a rapper from London, felt sad and unsure after a tough time. Her new album, Lotus, helped her heal and find her purpose again.

The album is about feeling alone and growing. Simz feels proud of "Lotus" and says music is like her diary. It makes her feel strong.

Simz had issues with her old producer and stopped some albums. Despite many awards, she felt unsure, but Lotus helped her believe in herself again.

The name Lotus is from a flower in muddy water. It shows beauty from tough places. It's okay to feel lost; we can grow and get better.
