

The TRA will keep a rule to stop unfair pricing on ceramic kitchenware from China until 16 July 2029. This helps UK makers sell £100m yearly.

If the rule ends, cheaper Chinese goods could harm UK businesses. In 2024, 67% of UK ceramic imports were from China, 75% cheaper than UK products.

Share your thoughts with the TRA by 3 July 2025. They check if rules are needed for fair trade. Extra charges on Chinese goods are 13.1% to 36.1%.
