

Changes to Benefits for Disabled People

A new UK law may make it harder for disabled people to get help. Charities say more might need food banks by 2029/30.

The Bill will cut money for disabled people. Universal Credit and Personal Independence Payment will be frozen and cut from 2026.

The Bill helps some people for 13 weeks if they lose benefits. Very disabled people won't be reassessed and get more money. Charities say it's unfair.
