

Lyndzi Hargrave lives in a bus home with a library. She bought it in 2023, moved in 2024, and it cost over £50,000 with solar panels.

Lyndzi will take her bus to festivals with a free library and book swap. Living on the bus makes her think about needs and using less plastic.

The bus has a stove, a library with a ladder, a bath, and a toilet. Lyndzi wants to bring books to places without libraries.
