

The IPO and Taskmaster Education made a fun learning programme for UK schools called Taskmaster Club 100 for ages 11 to 16.

Schools can apply 10 June-15 August 2025. Winners know by 1 September. They get fun lessons and a chance to meet Alex Horne online.

Lessons teach skills like solving problems, working in teams, and being creative. They also help students learn about respecting creative rights.

Schools can join by filling out a short online form. They can use the programme in different ways, like competitions or special events.

The programme helps students learn and have fun. It encourages creativity, teamwork, and thinking in new ways.
