

Southport's Town Hall gardens will get a £10m makeover inspired by Elsie, Alice, and Bebe, who loved dance and music.

The new space is for fun and creativity. It will have family events and be safe for young people. Families thank Southport for their support.

Sefton Council and others are giving money for the project. Important people like the Prime Minister support it and met families to discuss plans.

The gardens will remember Elsie, Alice, and Bebe. They will celebrate dance, arts, and inspire hope and togetherness for the future.
