

The Defence Secretary and NATO boss visited a Sheffield factory. It makes steel for submarines, helping UK jobs and safety.

Sheffield Forgemasters factory has 725 workers. It makes parts for submarines, helping the UK's defence and creating many jobs.

The UK will spend more on defence, making submarines and weapons, building factories, and improving military housing to be strong in Europe.

The UK plans to spend more on defence by 2027 to help support NATO and provide equipment to countries like Ukraine for safety.
