

Amazon's Big UK Investment

Amazon will spend £40 billion in the UK, creating over 4,000 jobs in places like Hull and Northampton by building and improving centres.

The investment will build data centres for AI, create skilled jobs, and help the UK lead in tech. There will be new training and film productions.

The UK government says their Plan for Change is working. It's making the UK good for business and jobs. Amazon's investment is a big win.
