

A better path in Dorset is now 21 miles long, from Kimmeridge Bay to South Haven Point, as part of a plan for a walking route around England's coast.

The South West Coast Path lets people walk near the sea. If the coast changes, the path can move to keep it safe.

The path goes through Kimmeridge Bay and Studland Bay on the Jurassic Coast. Enjoy views, beaches, and wildlife like dolphins and seabirds.

Durlston Country Park has a castle, lighthouse, and big stone globe. See animals and enjoy great views of the coast.

Natural England improved the path, making it easy to walk and near the sea. They created new routes for safety.

The path is part of the King Charles III England Coast Path, the longest coastal path in the world. It lets people enjoy nature and learn about the coast.

The South West Coast Path Association keeps the path nice. They want people to enjoy and help care for it. Visit their website for more info.
