

Help Needed for Haiti

Haiti has a gang problem since 2021. Many left homes, and children are in danger. Gangs hurt people, especially women and girls.

The UN is worried about more sexual violence. Gangs use it to show power. Many can't get help. The UN wants to protect people and stop these crimes.

The UN helps Haiti by supporting police, stopping gangs, and punishing criminals. They need more money and help from other countries.
