

The UK wants to use AI in schools to help teachers. They made new rules to keep it safe. This is part of their Plan for Change.

Teachers will get help with AI. The government is giving money for new AI tools to help with marking and feedback.

Schools can try new AI tools to make teaching fun and keep good teachers. The government also wants to hire more teachers.

The plan is to teach kids about AI and tech jobs. This helps them learn about technology and get ready for future jobs.
