

Rory McIlroy from Northern Ireland is worried about his golf game. He had trouble with a new club at the Canadian Open and didn't play well.

He changed his driver and hit 13 out of 28 fairways in Toronto. He's worried about this for the US Open next week.

McIlroy will practise and try new drivers to find the best one before the US Open on 12 June. He wants to improve his game and hit more fairways.
