

Lando Norris was fastest at the Spanish Grand Prix practice, ahead of Max Verstappen, Oscar Piastri, Lewis Hamilton, and Charles Leclerc.

A new rule on front wings aims to limit flexible wings for speed control. Red Bull and Ferrari hope this helps them.

McLaren and Mercedes used flexible wings for speed. New tests may change this. It's unclear if it will affect the race a lot.

The Spanish Grand Prix track has fast corners. This might be good for Red Bull, like tracks where Verstappen did well. New rules may change the race.
