

The SFO is getting more money to stop fraud. This helps find crimes early and use better tech. It's part of a plan to cut crime and grow the economy.

The SFO will receive over £8 million in three years, adding to £9.3 million. This helps them improve catching big, complex crimes.

The SFO's budget will rise to £97.64 million to help find and take back criminal money, like crypto, to protect people's money and UK business.
