

Planning Inspectorate Report 2024/25

The Planning Inspectorate's 2024/25 report focuses on fast, good, and cost-saving planning decisions and aims for better teamwork.

They helped approve 28,000 homes and worked on roads and railways. They worked with local groups to meet people's needs.

Paul Morrison says working together is important. They want a planning system that works well. They are doing better but still have more to do.
